New Technology Automates Procedures and Secures Stores During Vulnerable Openings and Closings

Retailers of all sizes use SafeResource™ to increase staff safety and efficiency

Robberies and burglaries continue to be a problem at all types of retail establishments...from Jewelers to Convenience Stores to Electronics Retailers to Pharmacies. Adding to security concerns is the trend of reducing staff costs by having fewer staff onsite during opening and closings which leaves staff more vulnerable to crime. Fortunately, SafeResource technology works in all types of Retailers to improve safety and provide comprehensive reporting of security protocols being met.

Based on the highly successful SafeBanker® platform, SafeResource automates store openings and closings. Key features of this innovative technology include:

- **Uniform opening and closing process for all stores:** standardized processes are efficient and safer, and allow even newer staff members to safely open/close stores.
- **Audio/video/chat support in panic situations:** Immediately connects staff to security support to ensure safety.
- **Full reporting capability:** provides detailed feedback on store opening/closing times as well as if security procedures are being correctly followed. All info is available via download to Excel.
- **Reduced liability risk.**
- **Cost savings through increased efficiency in stores and back office:** fewer store staff are required and less time is spent generating reports.

SafeResource links directly with your own Security Monitoring Center, or 3SI can offer complete monitoring service and support with a U.L. Certified, TMA 5-Diamond facility. SafeResource is scalable so the system will work well for retailers of any size.

Notes for editors

About 3SI Security Systems (3SI)

3SI is a global leader in asset protection systems designed to recover stolen cash and high-value assets, apprehend criminals and deter crime with more than 45 years of experience in financial and retail markets. 3SI's solutions include currency degradation and GPS tracking solutions to protect

cash and high-value assets in banks, safes and ATMs, jewelry, pharmaceuticals, consumer electronics, other retailers and law enforcement. 3SI is the exclusive distributor of SafeBanker and SafeResource®, both products of SaferMobility LLC.

3SI global headquarters is near Philadelphia, PA. For more information, visit 3si.com
