

Phone Tracker™

Powerful GNSS/GPS Tracking To Capture Criminals and Recover Stolen Assets

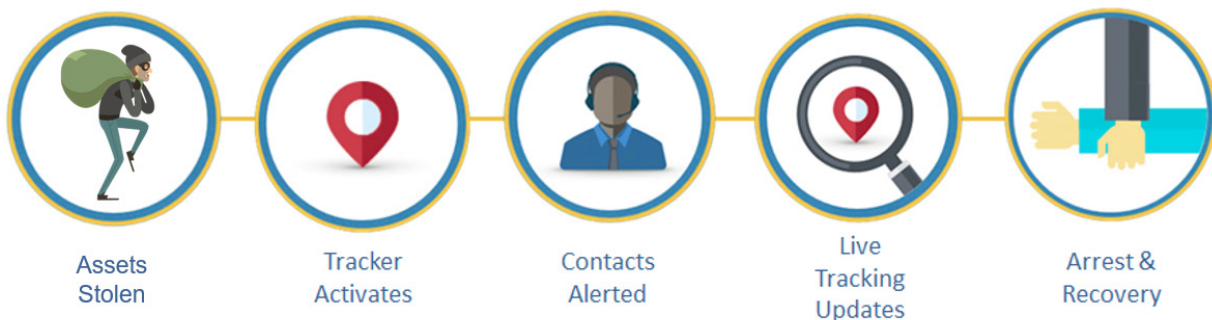

Phone Tracker protects high-end smartphone inventory in the event of a robbery or burglary by helping law enforcement track and capture the criminals, recover stolen goods and deter future crime. Phone Tracker incorporates the proven technology of 3SI's Tracking System. Thousands of Consumer electronics stores utilize this high-tech, reliable solution to protect their locations.

If a Theft Occurs... Phone Tracker automatically triggers a silent theft alert upon motion or tilt. The tracking information is accessed by local law enforcement allowing safe pursuit and apprehension.

Features and Benefits

- Automatically detects theft via motion or tilt
- Covert design
- Location updates every 6 seconds to allow precise tracking
- GNSS/GPS, Cellular and WiFi tracking options provide precise location reporting
- Reliable performance ensured via semi-monthly Device health check with cellular connection
- Secure website for live tracking ensures integrity of client information
- Text and email notifications
- Stores data if cellular signal is lost to preserve track data
- RF to pinpoint final Device location
- Do It Yourself friendly for install and charging

3SI Security Systems offers proven **Tracking Solutions** that combine GNSS/GPS, Cellular and Radio Frequency (RF) location technologies with a secure tracking website. Available in a variety of designs to track all types of valuable assets, our system has led to the recovery of millions in stolen cash and assets. **Our Cash Tracing Solutions** use ink, dye and smoke to help stop crime and catch criminals. And **our Safety Systems** use APP technology to protect staff members against crime and provide detailed reporting to maximize efficiency and cost-effectiveness.
