

December 7, 2016

To Whom It May Concern:

Mountain America Credit Union prides itself on always putting our members' needs first. The partnership we have with 3SI Security Systems is successful because they have this same philosophy. They take time to understand the challenges and opportunities of their clients and provide innovative, customized asset protection solutions to meet our evolving needs.

3SI Security Systems delivers unparalleled service through innovation and state-of-the-art technology, without sacrificing quality for convenience. They continue to help Mountain America Credit Union maintain its commitment to our members by providing quality asset protection solutions and products.

We appreciate the collaboration and responsiveness of David Gill, Account Executive and David Dixon, Western Region Sales Manager. Both have assisted us with many of our security projects and have done an excellent job. They continually go out of their way to ensure we are satisfied and that Mountain America's standards are consistently met. We consider them a valuable part of the Mountain America Security Team's success.

Thank you, 3SI, for your valuable partnership!

Sincerely,
