

## SafeResource™

### Store Safety...at Your Fingertips

SafeResource™ is an App technology that resides on a smartphone (Android and iOS Devices) and is supported by a 24/7 Security Operations Center (SOC). The App links directly to the SOC to ensure that every step of the open and close process is completed safely. Data collected by the system is downloadable for reporting and audit. Together, the systems improve store safety, reduce costs, and provide comprehensive reporting and documentation of security protocols.

#### Features

- Safer store open and close
- Task list to help staff complete processes
- Electronic store status notifications and alerts
- Ensures uniform staff procedures
- Full audit program provides store analytics
- Automatically links to customer's or 3SI's SOC
- Significant cost savings through efficiency gains

#### Automated and Assisted Open and Close

During open/close, staff initiate the SafeResource Mobile App, which is linked to a Security Operations Center. It automatically provides the staff name, profile, location and notification that an opening or closing is occurring. When needed, real-time audio, chat and video streaming is engaged with a tap on the screen, so staff are never alone in a vulnerable situation. The Monitoring Center receives visual and audible indicators of trouble at any store location. Trouble notifications are automatic and covert to keep staff safe at all times.

#### How It Works

**Staff Arrives at Store**

**App Opened, Process Begins**

**Trouble Occurs**

**Staff Activate Panic Alarm**

**SOC Notifies Police and Stays on Line with Staff**

## Electronic Notification and Audit Reporting

The safe open or close of your store is communicated automatically to each employee's smartphone and to the Monitoring Center by providing a notification. A Task List function ensures all required procedures are followed and performed. Each action is recorded for generating reports and auditing, improve staff scheduling and other efficiencies to ensure smooth operations at your store.

*The SafeResource App is easily installed on any smartphone*

### About 3SI

**Over 48 years** of experience and specialized knowledge in the **Security field**

**24/7** US-based support

**Long-term relationships** with the industry, built on **trust and satisfaction**

Partnered with over **9,000 law enforcement agencies**

Over **14.5K criminals apprehended** and **\$119M in assets recovered**

### Our solutions

**Tracking** uses multiple technologies to help police track crimes, recover stolen property and arrest criminals

**Cash Tracing** uses ink, smoke and dye to foil robberies, recover stolen cash and apprehend criminals

**SaaS Safety Systems** use APP technology to protect staff members against crime and provide detailed reporting to increase efficiency and reduce costs
